*Lori Granito was a key guest speaker at a recent event I hosted as part of the AXA Customer Experience Annual leadership forum where she spoke on the topic of Customer Experience to a room full of Insurance Industry professionals. Her experience, knowledge and expertise provides answers to questions that anyone with customers and a desire to succeed would wish they had thought to ask themselves. She enchants, educates and entertains by being and sharing herself; warm and insightful. She has the enthusiasm of a student and the gifts of a dedicated teacher. Lori was the delicious difference that our guests will never forget.*

*Unlike most speakers who present, Lori engages her audience by bringing them into the storyline and taking them on a journey of discovery with her. She melds real life experiences into her presentation which allow the audience to connect with her on a personal level. She has an innate ability to connect to a diverse audience because she is honest in her approach...what you see is what you get!.... It may sound a bit cliché, but she has a unique passion for speaking which enchants her audience much like an incantation or spell, which keeps them on the edge of their seats waiting for the next word to be uttered.*
